

***** This is email that was written to encourage sign up into a MLM opportunity.**

Hi,

I welcome you to the Nutronix Family. I am sure that you will find the products and business a positive experience. The people, products, and system are great. If you stick with the program and work to build your business you will see amazing growth. Many people in this program are making very good money.

I am Ed Anderson and a member of your up line. I have been in the business a few months and have had good experience with both the products and business of Nutronix. This is my first successful adventure with multi level marketing. The level of support has made the difference. Both the people above me and the system have gone the extra mile to help me build a strong down line. I'm sure they will for you too. I am part of your up line and am glad to offer my support as well.

I encourage you to study the information on the web site and take the steps to get yourself setup to start getting commissions. You need to start your auto shipments as soon as possible to capture the quick start bonuses.

Also feel free to contact your up line for answers to your questions and problems. You are not in this alone. Your success is important to us as well. If we cannot answer your question, we will help you find an answer. Remember that as your business grows you will be supporting your down line as well.

So, welcome again to the business. I wish you the best of success with growing your business. Remember that all people like to feel a connection to a group. Using your energy and personality to build that connection with your team is one key to a great down line.

Wishing you Good Luck and Great Success.
